

Children potty about design

Young children have been given designing skills on a plate as part of their half-term fun in Bognor Regis.

The eight year olds and upwards have been creating ceramics in special workshops at Glazed Expressions in Aldwick Road.

They have been able to design and paint a wide array of plates, mugs, vases, bowls, plates or tiles during the sessions held as part of the Oscar programme.

The packed timetable put together by Arun District Council's sport and play department for this week also featured indoor cricket, football for boys and girls, table tennis, indoor wall climbing and pony riding.

Storyteller Michael O'Leary is pictured with Isobel Beeby (left) and Fiona Callingham as they design and paint their plates as part of Oscar activities at Glazed Expression. Sales no: 00568-1.
